

# Deadman Turner

## BAND STORY

"Deadman Turner was found at the Launceston Tip being raised by spotted-tail quolls, and brought up (by his profoundly deaf, adoptive parents) on a diet of Polish polka and Hungarian salami. After touring the world by unicycle, and teaching Braille-typing in an Ukrainian whorehouse, Deadman returned to Tasmania where he learned to play slide guitar during the hours he spent waiting in vain for the devil to appear down at the crossroads."
