My songs are mostly the blues, technically there not songs because I don't sing, well only on one song, but there are a few collaborations with artist and loons that do. Besides the blues there are a few odds and ends that go past the knob along with some digital confessions.

To get a better overview of what I got here check out my [Song Info Blog](#) .

The songs are listed by date on the [Music Page](#), don't bother trying to play the album thing there it don't work.

Hope you enjoy your listen. :)
